

Thank you for your interest in the Enovert Community Trust (formerly known as the Cory Environmental Trust in Britain). This is an independent Environmental Body funded through the Landfill Communities Fund (LCF) by Enovert Management Limited.

The Trustees welcome bids to help the Trust meet its objectives to enhance and improve the environment for communities who live and work in the vicinity of an Enovert landfill site. All projects must meet one of the criteria set out on Page 2 of the enclosed Application Form.

The maximum grant is generally awarded by ECT is around £50k and the Trust requires 10% independent 3<sup>rd</sup> party funding\* (e.g., for a grant of £20k you will need to identify a 3<sup>rd</sup> party who will be willing to contribute £2k to Enovert Management Ltd to reimburse it for the tax credit).

Should you decide to make an application for funding please include as much relevant detail as possible as this will help Trustees in the selection process. However, please do not **spiral bind** your papers, as it makes them difficult to copy.

If you decide to make a bid for funding, please complete and return the enclosed application form. Please submit any supported papers without a binding, as this helps when they are copied during the application process. Should you need any further information or assistance with the application form, please feel free to ring me on 01753 582513 or email [ahaymonds@enovertct.org](mailto:ahaymonds@enovertct.org) and I will try to help you.

I look forward to receiving your application.

Yours sincerely

A handwritten signature in black ink that reads "A Haymonds". The signature is fluid and cursive, with the first letter 'A' being large and prominent.

Angela Haymonds  
Trust Manager

**Deadlines for 2026/27:**

5 Dec for a meeting on 20 Jan 2026; 5 Dec 25 for a meeting on 20 Jan 26; 27 Feb 26 for a meeting on 14 Apr 26; 22 May 26 for a meeting on 7 Jul 26; 4 Sep 26 for a meeting on 20 Oct 26; 4 Dec 26 for a meeting on 19 Jan 27 and quarterly thereafter.

\*ENTRUST, the scheme's regulator, has now said that the project proposer can now provide this 10% contribution, if it does not use landfill tax credits to make the payment, or funds from a contractor that is working on the project, nor should they derive a unique benefit from the project going ahead. Different rules apply to registered Environmental Bodies.
